PROFESSIONAL SUMMARY

Databricks Certified Data Engineer Professional with 3+ years of experience building and optimizing production ETL/ELT pipelines in Python, SQL, PySpark, and Apache Spark. Currently build pipelines processing 5M+ records per month for a CPG AI demand-forecasting platform, with a metadata-driven framework, Airflow orchestration, and automated data quality checks. Previously built Azure Databricks lakehouse pipelines integrating 1,000+ tables.

TECHNICAL SKILLS

Languages and Spark: Python, SQL, PySpark, Apache Spark, Spark SQL, Structured Streaming

Azure and Databricks: Azure Databricks, Azure Data Factory (ADF), Azure Data Lake Storage Gen2 (ADLS Gen2), Delta Lake, Auto Loader, Unity Catalog, Delta Live Tables (DLT), Databricks Workflows

Pipeline Engineering: ETL/ELT, Metadata-Driven Frameworks, Incremental Ingestion, Change Data Capture (CDC), Slowly Changing Dimensions (SCD Type 1/2), Batch and Streaming Processing, Distributed Processing, Data Migration

Data Modeling and Architecture: Dimensional Modeling, Star Schema, Snowflake Schema, Data Warehousing, Lakehouse Architecture, Medallion Architecture, Data Governance, Data Lineage, Data Lifecycle Management

Data Quality and Performance: Data Validation, Schema Validation, Business Rule Checks, Reconciliation, Spark Performance Tuning, Partitioning, Caching, Broadcast Joins, Z-Ordering, Query Optimization

Orchestration and Tools: Apache Airflow, Docker, YAML, Git, CI/CD, Linux, Apache Kafka

Sources and Formats: Oracle, SQL Server, ClickHouse, REST APIs, SFTP, Legacy SAS, Parquet, JSON, CSV

PROFESSIONAL EXPERIENCE

Asper (A Fractal Company) | Bengaluru, India

Data Engineer Jul 2025 – Present

- Design, build, and maintain production ETL pipelines processing 5M+ records per month from SFTP into ADLS Gen2, powering a consumer packaged goods (CPG) AI demand-forecasting platform.
- Orchestrate containerized data workflows with Apache Airflow DAGs and Docker, passing YAML configurations and runtime parameters to enable reusable pipeline execution.
- Developed a metadata-driven data preparation framework in Python, PySpark, and Apache Spark that uses YAML to configure ingestion, data cleansing, and transformations across multiple datasets.
- Reduced Spark pipeline execution time by up to 40% through partition tuning, caching, and broadcast joins; built ClickHouse materialized views for faster analytics.
- Automated data quality checks (schema validation, business rules, and reconciliation) that detect upstream data issues and generate approval-ready validation reports.
- Created a UI-based stakeholder approval system for reviewing validation reports and capturing feedback; approvals automatically trigger Airflow DAGs, reducing turnaround time.
- Built feature-preparation and post-model transformation pipelines supporting AI demand forecasting and analytics.

Celebal Technologies | Jaipur, India

Data Engineer Jul 2023 – Jun 2025

- Developed Azure lakehouse pipelines with Azure Data Factory, ADLS Gen2, Azure Databricks, and Delta Lake, integrating 1,000+ tables from 5+ sources including Oracle, SQL Server, and REST APIs.
- Built batch and incremental ingestion pipelines with ADF, Databricks Auto Loader, and watermark-based processing, applying CDC and SCD Type 1 and Type 2 patterns.
- Implemented Medallion architecture (Bronze, Silver, and Gold layers) and dimensional models (star and snowflake schemas) to serve Power BI analytics.
- Migrated legacy SAS data warehouse jobs to Databricks and Spark SQL, accelerating analytics delivery by 2x.
- Improved Spark pipeline performance by up to 80%; reduced manual effort by 40% through workflow automation.

CERTIFICATIONS

- Databricks Certified Data Engineer Professional; Databricks Lakehouse Fundamentals
- Microsoft Azure Fundamentals (AZ-900); Microsoft Azure Data Fundamentals (DP-900)
- Fractal PySpark Developer Associate; Fractal SQL Developer Associate

EDUCATION

Arya College of Engineering & IT (Rajasthan Technical University) | Jaipur, India

Bachelor of Technology (B.Tech.) in Computer Science | CGPA: 8.5/10 Jun 2023
